- AI900
- AZ900
- DP900
- Flutter & Dart Udemy Certification
- Modern JavaScript (Complete guide) Udemy Certification
- IC3 Digital Literacy Certification
- Cisco Certified Network Associate 1 (CCNA1)

PROFESSIONAL EXPERIENCE

Technical Support Engineer

Microsoft | December 2025 - Present

- Troubleshoot complex Dynamics 365 and Power Platform issues using telemetry and diagnostic logs to resolve enterprise-scale deployment and integration failures.
- Deliver technical resolutions and architectural guidance for Power Apps and Power Automate, ensuring high platform availability and strict SLA compliance.

Junior Flutter Developer

Wikitech SRL | July 2023 - October 2025

- Developed and tested cross-platform mobile applications using Flutter & BLoC for state management.
- Focused on cross-platform compatibility (Web, iOS, Android) and localizing apps for global markets.
- Utilized Git for versioning, collaboration and code management.
- Integrated Firebase and SQLite for real-time and local data persistence.

PERSONAL PROJECTS

Home Linker [🔗](#)

- Developed a cross-platform mobile app using Flutter, allowing users to browse apartments and homes for rent and sale on both iOS and Android
- Implemented hybrid data storage using Firebase for real-time synchronization and SQLite for local persistence.
- Designed features for property search, filtering, and detailed property views
- Integrated Google Maps API to save and display property locations
- Learned to use git by committing code changes regularly
